

MVE Environmental Protection

We have always made it a priority to focus on the reuse and refurbishment of maintenance parts. We are committed to becoming a more “green” company. Each year we continue to challenge ourselves as a company and individuals to minimize environmental impacts in all our operations.

MVE Customer Waste Reduction Plan

MVE is devoted to promoting our customers to save used parts and equipment and returning the used or faulty materials back to our warehouse for proper recycling or proper disposal. In some cases we are able to use these defective parts for refurbishing. We provide this complimentary service to our customers to help save parts and materials from being improperly disposed of.

Below is our advertisement for this Reeducation Plan:

Specializing in IBM mainframes, networking, & banking hardware

Core Return

Return you used part/s to MVE, Ltd.
Visit our website to download our Core Return Label.
